

“Making a difference in the lives of children and young adults with diabetes TODAY so they can live a healthy tomorrow.”

Dear Friends and family,

Cory and I feel very fortunate to be associated with Camp Hot Shots. Alyx Harter was diagnosed with juvenile diabetes at the age of five (5). She was seven (7) when she first attended Camp Hot Shots. We were the parents who could not leave the child's side so we stayed. Alyx is now 21 and we have all been active with camp ever since. We are humbled to be working with such a caring, dedicated group of professionals and volunteers for 15 years.

This camp has such a positive impact in the lives of children with Type 1 diabetes today. We enjoy watching the kids develop new friendships, grow in their knowledge of diabetes care and learn that they are not alone; all while having a great time.

Camp Hot Shots, Incorporated received its not-for-profit Corporation Certificate in 2002. Camp Hot Shots is recognized by the Internal Revenue Service as a 501 (c) 3. This allows us to actively seek out donations and financial support for camp, programming and other activities.

We invite you to get involved with camp areas such as event planning, awareness building, programming and fundraising. It takes a community to raise a child and these children need camp to increase and renew their dedication to good diabetes management. This is done through education and activities in a safe and welcoming environment.

Thank you everyone for your support of Camp Hot Shots throughout the years. We have countless volunteers and organizations that have given their time, talents, money and service to make this camp the success it is today!

Best of Health,

Cory and Chris Harter
